

Surface for Business

Original by design

Modern tech optimized for the hybrid work environment

The Surface for Business portfolio offers custom power where you need it and performance in ways that matter most to you and your business. Featuring versatile form factors, Surface devices deliver modern tech that everyone can use to collaborate and stay productive, wherever and however they work. They're optimized for the Microsoft 365* and Windows experiences users rely on, bringing speed, style, flexibility, and security to any task.

Meet Surface Laptop 4 for Business

Surface Laptop 4 makes it possible to do even more with unprecedented power and better graphics, fueled by an 11th Gen Intel® Core™ Processor or custom AMD processors. Immersive sound and longer battery life¹ keep you in the flow—all within Surface's signature ultra-slim design.

Surface Laptop 4 balances speed and style in a thin and light design, available in 13.5" and 15". It's perfect for those who need versatility, compatibility, and power to get it all done.

What's new in Surface Laptop 4:

- 11th Gen Intel® Core™ Processor and custom AMD processors² for exceptional performance and smooth multitasking across browser tabs and apps. Find out more about the processors in Surface Laptop 4 at aka.ms/SurfaceProcessor.
- Stunning PixelSense™ touchscreen's fast scrolling, natural inking, precise navigation, and exceptional color accuracy
- Crystal-clear audio for meetings and video calls with Omnisonic speakers
- Ultra-slim, with a hinge so innovative you can open the lid with just one finger and get back to work within seconds
